THE UNIVERSITY OF ALBERTA STAFF BULLETIN

EDMONTON, ALBERTA

JUNE 21, 1973

Guests did their own research on nutrition at the 52nd Annual Feeders' Day picnic held last week at the Edmonton Research Station. The program included reports on research carried out by members of the Department of Animal Science in 1972-73. Staff and friends paid a special tribute to LAIRD MC ELROY (left), who is retiring August 31 after 30 years on staff. Dr. McElroy became chairman of the department in 1951 and has been Associate Dean (Project Research) of Agriculture since 1969.

AGENDA FOR GENERAL FACULTIES COUNCIL MEETING

The following agenda has been received from MARGARET M. MIDGLEY, Secretary to General Faculties Council.

A meeting of General Faculties Council will be held on Monday, June 25, 1973 at 9 a.m. in the Council Chamber, University Hall.

1. Approval of the agenda.
2. Approval of the minutes of April 30, 1973.
3. Question period.

DEFERRED BUSINESS

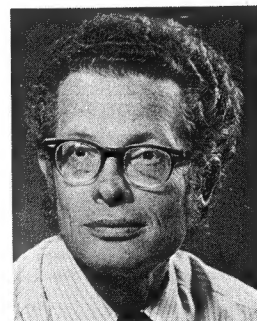

4. Selection Committee for the Dean of Medicine.
 - 4.1 Proposal for additional student representation.
 - 4.2 Proposal for increased representation from the Alberta Medical Association.
5. Election procedures for GFC committees.
6. Nominations for replacements on the Nominating Committee.
7. Student Activity Days.

NEW BUSINESS

8. Undergraduate Scholarship Committee: eligibility for awards to Honors students on reduced loads.
9. BA program in Canadian Studies: proposals for a certificate.
10. Report of the Nominating Committee. Additional nomination from members of GFC.
11. Other business.

APPOINTMENT

CHARLES W. HOBART has been appointed to a two-year term as Chairman of the Department of Sociology, effective July 1, 1973. He has been Acting Chairman of the department for the past year. Dr. Hobart was born in Swatow, China and still speaks the dialect he learned as a child. He attended university in the United States, receiving his BA from the University of Redlands in 1950 and his MA from the University of Southern California in 1951. In 1955 he was awarded a PhD in Sociology by Indiana University. He joined the staff here as Assistant Professor in 1962 and was appointed Professor in 1968.

EROSION UNDER CONTROL

A two-year project to stabilize a section of the North Saskatchewan riverbank fronting on University of Alberta property was successfully completed this spring.

The Riverbank Stabilization Project, begun in the winter of 1971-72, was designed to prevent further erosion along the south bank of the North Saskatchewan River between 112 and 116 Streets. An inspection of the area in 1971 indicated that the erosion along the bank had accelerated over the past few years due to various changes in the riverbank formation and in the rate of flow of the river.

The major reason for concern about the erosion of the riverbank has been the University's forest reserve area which is situated between 112 and 116 Streets and extends from Saskatchewan Drive to the river.

This area is widely used by all natural science, agriculture, and forestry disciplines on campus. It is geared as an outdoor laboratory which allows faculty and students to observe nature first-hand.

Studies of insects and small wildlife are carried out here, as well as observation of various environmental phenomena such as wind temperature and velocity, soil temperature and moisture content.

About 20 years ago a landslide wiped out a large section of this area and the stabilization project was conceived in order to prevent any further slides.

After preliminary studies were done to estimate the cost of the stabilization process, the assistance of Hardy Engineering Consultants was requested. Head of the firm, R. M. HARDY, is the former dean of the University's Faculty of Engineering. His firm

proposed a scheme to reinforce the bank in two stages, at a target cost of \$100,000.

The first phase of the stability project was begun early in January, 1972 in order that the work be completed before the spring break-up of the river. This first phase reconstructed the bank from the Biological Sciences Building (approximately 114 Street) west to 116 Street. It was completed in late February, 1972.

Work on the second phase, begun on February 1, 1973 and completed in early March, was done on the area from 114 Street to 112 Street.

Although some recommendations called for the construction of a cement retaining wall, it was decided that such elaborate and costly work was not necessary. Instead, a berm, or artificial riverbank, was constructed from various mixtures of gravel.

Pit-run gravel, a mixture of various sizes of pebbles and rocks, was used as the foundation of the berm. Rip-rap, a heavy-duty gravel comprised of larger rocks, was used as the top layer of the artificial bank.

The first phase was put to the test soon after its completion. At the time of the spring break-up the river valley experienced near-record flooding. When the water level receded, it was noted that while the newly-constructed berm had been completely covered with water and silt, it had not moved but had held the bank stable throughout the flooding.

Contractor for the job was J. B. McDonald and Son. Gravel was supplied by Clover Bar Sand and Gravel Ltd. The final cost of the two-year project was \$94,000.

The berm will be checked in late August for any weak areas, but the project is considered a success. The forest reserve area seems out of danger and, according to W. D. NEAL, Vice-President (Planning and Development), "the University has exercised a responsible attitude with respect to a major physical asset of the city".

MICROBIOLOGISTS HOLD NATIONAL MEETING

The national meeting of the Canadian Society of Microbiologists is being held on campus. It began June 19 and runs to June 23.

This, the 23rd annual meeting, will be the first held in Edmonton. Delegates are attending from all the Canadian provinces and there are some from the United States.

W. S. WESTLAKE, Chairman of Microbiology, is the convenor of the meeting. He has set up a program featuring a symposium centered around topics in aquatic microbiology with reference to human, animal, and fish health. The symposium is being chaired by L. E.

BRYAN, Associate Professor of Medical Bacteriology.

Addresses include those given by H. NASH, Cincinnati Water Research Laboratory of the Robert A. Taft Sanitary Engineering Centre; M. FISHBEIN, Food Microbiology Branch of the United States Department of Health, Education, and Welfare; and J. FRYER of the Department of Microbiology, Oregon State University. In addition about 100 short papers are being presented by members of the microbiology society covering topics from microbial physiology, ecology, morphology, and virology, to infection, immunity, and epidemiology.

VISITORS

Visitors to the Department of Biochemistry recently have been: FIN WOLD, Department of Biochemistry, University of Minnesota; WAYNE HENDRICKSON, Research Physicist, Laboratory for the Structure of Matter, U.S. Naval Research Laboratory, Washington D.C.; and R. D. B. FRASER, Chief Research Scientist, Division of Protein Chemistry, Wool Research Laboratories, Parkville, Australia. All gave seminars to the department.

M. M. ISLAM of the University of Connecticut gave a seminar to the Department of Physics.

PEOPLE

GERWIN MARAHRENS, Professor and Chairman of Germanic Languages, was elected member of the executive of the Canadian Association of University Teachers of German to represent the provinces of Alberta and British Columbia.

P. J. SMITH, Professor and Chairman of Geography, has been elected president of the Canadian Association of Geographers for 1973-74. The election was announced at the annual meeting of the association held recently at Lakehead University, Thunder Bay.

P. A. R. MONOD, Associate Professor of Romance Languages, has been re-elected president of the Canadian Semiotics Research Association during the conference of the Learned Societies in Kingston.

The following staff members of the Department of English gave papers at the annual meeting of the Association of Canadian University Teachers of English (ACUTE), held at the Learned Societies meeting at Queen's University: JULIET MC MASTER, R. J. MERRETT, GERALD MC CAUGHEY, C. Q. DRUMMOND, and SHEILA WATSON. R. D. MC MASTER, Professor of English, and R. G. MOYLES, Assistant Professor of English, are respectively president and secretary-treasurer of ACUTE.
